World Oil

EXPLORATION • DRILLING • PRODUCTION

1973 ANNUAL EDITORIAL INDEX

WORLD OIL is published monthly
except semi-monthly in February and August
by
GULF PUBLISHING COMPANY

Executive Offices:
3301 Allen Parkway, Houston, Texas
Cable Address: Gulfpubco, Houston

☆ABP SCMP ABC

William G. Dudley ..... Publisher
Robert W. Scott ..... Editor
Robert E. Snyder ..... Engineering Editor
Thomas R. Wright, Jr. ..... Engineering Editor
Jim Montgomery ..... Exploration Editor
Carene Smith ..... News Editor
Charles Vervalin ..... Management Editor
Clyde LaMotte ..... Washington Bureau
Wallace Fitzgerald ..... Managing Editor
Jack Cockerham ..... Presentation Editor
Diane Gillebaard ... Assistant to Managing Editor
Bill Logan ..... Staff Artist
Glen Hughes ..... Staff Artist
Pixie Gascoigne ..... Editorial Assistant

Index of special issues and special reports

Issue	Date
Forecast-Review	Feb. 15
Exploration	April
Artificial Lift Report	May
Offshore '73	July
International Outlook Issue	Aug. 15
Drilling Progress	October
Special Production Report	November

Index by subjects

DRILLING ARTICLES

Subject	Title	Author	Issue	Page
Automation.	Drilling experience with the electric power swivel		June	43
	Technical advances support increased drilling activity.	T. R. Wright, Jr.	Oct.	60
Bits.	Protected bits run longer in Williston basin tests.	B. V. Randall and K. W. Oates	May	108
Blowout control.	How Panarctic drilled the world's northernmost wildcats.	G. L. Hood and J. G. Williams	Jan.	33
	How downhole temperatures, pressures affect drilling. Part 8.	Donald G. Timko and Walter H. Fertl	Jan.	45
	Mud separators are vital to effective well control.	E. R. West and T. B. O'Brien	Feb. 1	27
	Unique device sees well kicks before they surface.	R. W. Rochon	Aug. 1	62
	What to remember when interpreting mud gas cutting.	Dr. Walter H. Fertl	Sept.	67
	How to hydraulically control well kicks.	E. R. West	Oct.	57
	Technical advances support increased drilling activity.	T. R. Wright, Jr.	Oct.	60
	How geothermal wells are drilled and completed	John Cromling	Dec.	42
Casing, liners, etc.	29,000-foot target depth set for Oklahoma wildcat		Feb. 1	56
	Gypsum-cement blend works well in permafrost	N. M. Kljucec, A. S. Telford and C. C. Bombardieri	Mar.	49
	Record casing string set in Oklahoma wildcat		July	135
	Pressure testing of oil field tubular connections.	Dr. Ben A. Eaton	Sept.	48
	Careful planning results in better zone isolation.	George W. Tullos	Sept.	61
	Liner cementing: New methods may solve old problems.	H. E. Lindsey and S. J. Bateman	Oct.	65
	New completion technique keeps formation faces clean		Nov.	49
	How geothermal wells are drilled and completed.	John Cromling	Dec.	42
	Pipe scarcity threatens U.S. drilling activity		Dec.	61
	How equipment shortages are affecting one contractor		Dec.	64
Cementing.	Gypsum-cement blend works well in permafrost.	N. M. Kljucec, A. S. Telford and C. C. Bombardieri	Mar.	49
	Careful planning results in better zone isolation.	George W. Tullos	Sept.	61
	Liner cementing: New methods may solve old problems.	H. E. Lindsey and S. J. Bateman	Oct.	65
	New completion technique keeps formation faces clean		Nov.	49
Deep drilling.	Mud separators are vital to effective well control.	E. R. West and T. B. O'Brien	Feb. 1	27
	29,000-foot target depth set for Oklahoma wildcat		Feb. 1	56
	Six wells set new drilling depth records		Feb. 15	74
	Deep well report: 484 wells set new high mark		Feb. 15	76
	Record casing string set in Oklahoma wildcat		July	135
	What it takes to drill ultra-deep wells successfully		Aug. 1	30
	Liner cementing: New methods may solve old problems.	H. E. Lindsey and S. J. Bateman	Oct.	65

Subject	Title	Author	Issue	Page
Directional drilling.	Electronic yaw equipment speeds directional work.	Jim Murray	Jan.	63
	12 ways to cut the cost of directional drilling.	G. J. Wilson	July	147
Downhole equipment and assemblies.	How Panarctic drilled the world's northernmost wildcats.	G. L. Hood and J. G. Williams	Jan.	33
	Electronic yaw equipment speeds directional work.	Jim Murray	Jan.	63
	Mud separators are vital to effective well control.	E. R. West and T. B. O'Brien	Feb. 1	27
	12 ways to cut the cost of directional drilling.	G. J. Wilson	July	147
	Technical advances support increased drilling activity.	T. R. Wright, Jr.	Oct.	60
	Closed-chamber DST provides safer well evaluation.	L. G. Alexander	Oct.	65
	Minimize drillstem failures caused by hydrogen sulfide.	H. L. Mauzy	Nov.	65
Drill pipe.	How Panarctic drilled the world's northernmost wildcats.	G. L. Hood and J. G. Williams	Jan.	33
	Proper planning minimizes ultra-deep DST problems.	P. J. Zecchi and B. J. Scott	June	47
	Closed-chamber DST provides safer well evaluation.	L. G. Alexander	Oct.	65
	Minimize drillstem failures caused by hydrogen sulfide.	H. R. Mauzy	Nov.	65
	How geothermal wells are drilled and completed.	John Cromling	Dec.	42
Economics.	Protected bits run longer in Williston basin tests.	B. V. Randall and K. W. Oates	May	108
	What it costs to drill offshore exploratory wells.	Harold B. Leeton, Paul L. Gassett, James E. Knizner and Francis M. Smith, Jr.	July	84
	What it costs to develop offshore oil production.	Harold B. Leeton, Paul L. Gassett, James E. Knizner and Francis M. Smith, Jr.	July	86
	Unique equipment designs should cut drilling costs.	T. R. Wright, Jr.	July	94
	What it takes to drill ultra-deep wells successfully		Aug. 1	30
	How equipment shortages are affecting one contractor		Dec.	64
Instruments.	Electronic yaw equipment speeds directional work.	Jim Murray	Jan.	63
	Mud separators are vital to effective well control.	E. R. West and T. B. O'Brien	Feb. 1	27
	12 ways to cut the cost of directional drilling.	G. J. Wilson	July	147
	Unique device sees well kicks before they surface.	R. W. Rochon	Aug. 1	62
	How to hydraulically control well kicks.	E. R. West	Oct.	57
	Ultrasonic device monitors mud pit levels on floaters.	Philippe Dupin de Saint Cyr	Dec.	57
Drilling/completion fluids.	How Panarctic drilled the world's northernmost wildcats.	G. L. Hood and J. G. Williams	Jan.	33
	New muds improve drilling rate, hole stability.	George R. Gray	May	84
	Special mud system provides fast, in-gage surface hole.	N. M. Kljucec, L. R. Lipsett and K. J. Yurkowski	Aug. 1	42
	What to remember when interpreting mud gas cutting.	Dr. Walter H. Fertl	Sept.	67
	Technical advances support increased drilling activity.	T. R. Wright, Jr.	Oct.	60
	Ultrasonic device monitors mud pit levels on floaters.	Philippe Dupin de Saint Cyr	Dec.	57
Offshore drilling.	*SEDCO 445* drills off Borneo with dynamic positioning		Feb. 1	31
	New semisubmersible design may cut investment 20%		Feb. 15	103
	Unique platform designed for 650-foot water depth		Feb. 15	133
	How BP will equip the North Sea's Forties field.	A. Craven-Walker	May	55
	Drilling experience with the electric power swivel		June	43
	Shell outlines Brent, Auk production plans.	John Heaney	June	55
	Interest focuses on North Sea, Gulf of Mexico, Far East.	Robert E. King	July	75
	What it costs to drill offshore exploratory wells.	Harold B. Leeton, Paul L. Gassett, James E. Knizner and Francis M. Smith, Jr.	July	84
	New concepts are solving deep water problems		July	92
	Unique equipment designs should cut drilling costs.	T. R. Wright, Jr.	July	94
	Indonesia's friendly politics spark record oil boom.	Robert E. Snyder	Aug. 15	23
	"Small" semi-submersible sets North Sea drilling record		Oct.	72
	What's been learned from the Deep Sea Drilling Project		Oct.	73
	Novel platform designed to reduce offshore costs.	Nicolo Alparone	Nov.	90
	Ultrasonic device monitors mud pit levels on floaters.	Philippe Dupin de Saint Cyr	Dec.	57
Penetration rates.	New muds improve drilling rate, hole stability.	George R. Gary	May	84
	Protected bits run longer in Williston basin tests.	B. V. Randall and K. W. Oates	May	108
	Drilling experience with the electric power swivel		June	43
Practices, problems and techniques.	How Panarctic drilled the world's northernmost wildcats.	G. L. Hood and J. G. Williams	Jan.	33
	Electronic yaw equipment speeds directional work.	Jim Murray	Jan.	63
	What it takes to drill ultra-deep wells successfully		Asg. 1	30
	How TOTAL beat severe Spitsbergen weather.	Jean-Louis Corgnet	Sept.	45
	Pressure testing of oil field tubular connections.	Dr. Ben A. Eaton	Sept.	48
	Careful planning results in better zone isolation.	George W. Tullos	Sept.	61
	How geothermal wells are drilled and completed.	John Cromling	Dec.	13
Pressure predictions.	How downhole temperatures, pressures affect drilling. Part 8.	Donald G. Timko and Walter H. Fertl	Jan.	45
	Mud separators are vital to effective well control.	E. R. West and T. B. O'Brien	Feb. 1	27
	How downhole temperatures, pressures affect drilling. Part 9.	Walter H. Fertl and Donald J. Timko	Feb. 1	47
	How downhole temperatures, pressures affect drilling. Part 10.	Walter H. Fertl and Donald J. Timko	Mar.	62
	New prediction method spots abnormal pressures.	W. R. Matthews, R. T. McClendon and C. H. Soucek	Apr.	87
	Unique device sees well kicks before they surface.	R. W. Rochon	Aug. 1	62
	What to remember when interpreting mud gas cutting.	Dr. Walter H. Fertl	Sept.	67
	How to hydraulically control well kicks.	E. R. West	Oct.	57
Rigs.	How Panarctic drilled the world's northernmost wildcats.	G. L. Hood and J. G. Williams	Jan.	33
	SEDCO 4453 drills off Borneo with dynamic positioning		Feb. 1	31
	North Dakota wildcatting active on 200-mile front.	Joseph A. Kornfeld and Maury M. Travis	Feb. 1	36
	Rotary rig activity rebounds		Feb. 15	76
	New semisubmersible design may cut investment 20%		Feb. 15	103
	How to hydraulically control well kicks.	E. R. West	Oct.	57
	Closed-chamber DST provides safer well evaluation.	L. G. Alexander	Oct.	69
What's happening in drilling/exploration.		T. R. Wright, Jr., Column appearing in each issue.		

PRODUCTION ARTICLES

Subject	Title	Author	Issue	Page
Artificial lift.	Artificial lift: down slightly in 1973		Feb. 15	86
	4 new ways to reduce artificial lift expense		May	63
	New chamber system gas lifts low BHP wells		May	63
	Improved string design cuts rod breaks		May	64
	50,000 psi sucker rod passes field tests		May	65
	Deep well tests show jet pump advantages		May	66

Subject	Title	Author	Issue	Page
	Novel heavy oil pump boosts efficiency in problem wells. Robert E. Snyder		Nov.	47
	New hydraulic pumping unit has unique control system		Dec.	51
Corrosion.	Florida's Jay field aims for 93,500 bpd. G. E. Uthlaut		Feb. 1	41
	Minimize drillstem failures caused by hydrogen sulfide. H. L. Mauzy		Nov.	65
Economics.	Simplified profit index aids economic evaluations. H. A. El Banbi and A. S. El Mekkawy		Jan.	79
	Accurate estimates of power needs can save you money. R. N. Rhodes		Feb. 1	51
	Improved Maraflood process boosts profit potential. W. B. Gogarty and J. A. Davis, Jr.		Mar.	53
	Injection fluid costs are slashed at least 50%		Mar.	54
	New pilot test patterns cut evaluation costs		Mar.	55
	4 new ways to reduce artificial lift expense		May	63
	Solar power generator cuts offshore operating costs. Robert E. Snyder		May	81
	What it costs to develop offshore oil production		July	86
	New French gas cooler recovers 120 bpd gasoline. M. Cotterlaz-Rennaz		Aug. 1	57
	Novel heavy oil pump boosts efficiency in problem wells. Robert E. Snyder		Nov.	47
	How equipment shortages are affecting one contractor		Dec.	73
Enhanced recovery.	Improved Maraflood process boosts profit potential. W. B. Gogarty and J. A. Davis, Jr.		Mar.	53
	Injection fluid costs are slashed at least 50%		Mar.	54
	Field tests give 10 years of design experience		Mar.	56
	Improved oil recovery could help ease energy shortage. Ted M. Geffen		Oct.	84
	Good pilot flood designs boost field project profit. Part 1. Dr. Charles R. Smith		Nov.	53
	Good pilot flood design boosts field project profit. Part 2. Dr. Charles R. Smith		Dec.	47
Equipment.	World's largest gas field aims for 10 billion cfd		Jan.	38
	New protection system may eliminate lightning damage. Robert E. Snyder		Jan.	59
	Big offshore service rig is spark-proof, portable		Feb. 1	39
	Accurate estimates of power needs can save you money. R. N. Rhodes		Feb. 1	51
	Protect buried pipe		Feb. 15	119
	How BP will equip the North Sea's Forties field. A. Craven-Walker		May	55
	"Diverless" tool quickly installs subsea guidelines. G. M. Chateau and B. R. de Cremiers		May	77
	New production ideas solve old problems offshore. Robert E. Snyder		July	98
	Underwater storage tanks interconnected quickly		July	119
	Simple method checks field pop valve setting		July	158
	New French gas cooler recovers 120 bpd gasoline		Aug. 1	57
	Practical new ideas help solve common field problems		Nov.	43
	New hydraulic pumping unit has unique control system		Dec.	51
Formation evaluation.	How downhole temperatures, pressure affect drilling. Part 8. Donald G. Timko and Walter H. Fertl		Jan.	45
	North Sea experience aids sandstone evaluation. Dr. W. H. Fertl and R. J. Cavanaugh		Apr.	77
	What's new in downhole operating technology. Dr. Robert Desbrandes		June	74
Offshore.	Big offshore service rig is spark-proof, portable		Feb. 1	39
	How BP will equip the North Sea's Forties field. A. Craven-Walker		May	55
	"Diverless" tool quickly installs subsea guidelines. G. M. Chateau and B. R. de Cremiers		May	77
	Solar power generator cuts offshore operating costs. Robert E. Snyder		May	81
	Shell outlines Brent, Auk production plans. John Heaney		June	55
	What it costs to develop offshore oil production		July	86
	New concepts are solving deep water problems		July	92
	New production ideas solve old problems offshore. Robert E. Snyder		July	98
	Surface wireline unit services seafloor wells		July	115
	Underwater storage tanks interconnected quickly		July	119
	Million-barrel storage tank installed at Ekofisk		Aug. 1	59
	Indonesia's friendly politics spark record oil boom. Robert E. Snyder		Aug. 15	23
Reservoir engineering.	How downhole temperatures, pressures affect drilling. Part 8. Donald G. Timko and Walter H. Fertl		Jan.	45
	Simplified profit index aids economic evaluations. H. A. El Banbi and A. S. El Mekkawy		Jan.	79
	What you should know about viscosity		Mar.	66
	Proper planning minimizes ultra-deep DST problems. P. J. Zecchi and B. J. Scott		June	47
	Closed-chamber DST provides safer well evaluation. L. G. Alexander		Oct.	69
Well completions.	World's largest gas field aims for 10 billion cfd		Jan.	38
	Florida's Jay field aims for 93,500 bpd. G. E. Uthlaut		Feb. 1	41
	How to estimate perforation size for limited entry		Mar.	66
	North Sea to get first manned seafloor completion		Apr.	139
	In-place clay stabilization cuts formation sand entry. Carl Veley and David G. Casey, Jr.		June	52
	Careful planning results in better zone isolation. George W. Tullos		Sept.	61
	Practical new ideas help solve common field problems		Nov.	43
	New completion technique keeps formation faces clean		Nov.	53
Well stimulation.	OH-Al treatments sustain acid-stimulated production. T. R. Blevins, W. R. Cotten and E. J. Dugas		Aug. 1	26
	Practical new ideas help solve common field problems		Nov.	43
Workovers.	Big offshore service rig is spark-proof, portable		Feb. 1	39
	"Diverless" tool quickly installs subsea guidelines. G. M. Chateau and B. R. de Cremiers		May	77
	In-place clay stabilization cuts formation sand entry. Carl Veley and David G. Casey, Jr.		June	52
	Surface wireline unit services seafloor wells		July	115
	OH-Al treatments sustain acid-stimulated production. T. R. Blevins, W. R. Cotten and E. J. Dugas		Aug. 1	26
	Pressure testing of oil field tubular connections. Dr. Ben A. Eaton		Sept.	48
	Practical new ideas solve common field problems		Nov.	43
What's happening in production.	Robert E. Snyder, Column appearing in each issue.			

EXPLORATION ARTICLES

Subject	Title	Author	Issue	Page
Active areas.	Higher gas prices boost drilling in eastern Ohio. Joseph A. Kornfeld		Jan.	57
	North Dakota wildcatting active on 200-mile front. Joseph A. Kornfeld and Maury M. Travis		Feb. 1	36
	Florida's Jay field aims for 93,500 bpd. G. E. Uthlaut		Feb. 1	41
	South Arkansas strikes stimulate drilling surge. Joseph A. Kornfeld		Mar.	68
	Louisiana offshore has top discovery potential in 1973. Dr. Robert E. King		Apr.	59

Subject	Title	Author	Issue	Page
	Northern Michigan Silurian reef fairway potential giant. Dr. Kenneth J. Mesolella		June	67
	South Illinois drilling expands with reef strikes. Joseph A. Kornfeld and Maury M. Travis		June	79
	Utah's Uinta basin still U.S. drilling hot spot		July	122
	Bear Island drilling paces South Florida work. Joseph A. Kornfeld		July	141
	Shallow gas discoveries boost interest in Kansas. Joseph A. Kornfeld		Aug. 1	51
	Record $6.2 billion is exposed in lease sale		Aug. 1	60
	Indonesia's friendly politics spark record oil boom. Robert E. Snyder		Aug. 15	23
	Carlsbad South gas field sparks New Mexico play. Joseph A. Kornfeld		Sept.	74
	Colorado's Wattenberg field hottest Rockies drilling area. Joseph A. Kornfeld and Maury M. Travis		Oct.	92
	Current discoveries will contribute little to U.S. energy supply this decade. Thomas D. Barrow		Nov.	75
	Deep discovery well sparks Wyoming Powder River search. Joseph A. Kornfeld		Nov.	28
	Energy shortage stimulates geothermal exploration. Robert L. Fuchs and Warren H. Westphal		Dec.	37
Costs.	What it costs to find hydrocarbons in the U.S. Fred M. Howell and Dr. H. A. Merklein		Oct.	75
Equipment.	Advantages and limitations of direct oil finding methods. Part 1. Dr. S. J. Pirson		Apr.	63
	Advantages and limitations of direct oil finding methods. Part 2. Dr. S. J. Pirson		May	73
	What's new in marine exploration		July	103
Geology.	Radar imagery identifies hidden jungle structures. R. S. Wing and H. C. Mac Donald		Apr.	67
	Beaufort Sea petroleum potential appears good. Robert E. King		May	105
	Northern Michigan Silurian reef fairway potential giant. Dr. Kenneth J. Mesolella		June	67
	Vast geologic basins attract Indonesian oil exploration. Part 1. R. A. Soeparjadi and R. C. Slocum		Aug. 1	35
	Deep Belgium core test		Aug. 1	38
	Vast geologic basins attract Indonesian oil exploration. Part 2. R. A. Soeparjadi and R. C. Slocum		Sept.	55
	Vast geologic basins attract Indonesian oil exploration. Part 3. R. A. Soeparjadi and R. C. Slocum		Oct.	80
	Energy shortage stimulates geothermal exploration. Robert L. Fuchs and Warren H. Westphal		Dec.	37
Methods.	Advantages and limitations of direct oil finding methods. Part 1. Dr. S. J. Pirson		Apr.	63
	New way to evaluate potential gas, oil source rocks. Dr. Walter C. Pusey, III		Apr.	71
	Does industry lack scientific exploration ability? Dr. Kenneth J. Mesolella		May	73
	Advantages and limitations of direct oil finding methods. Part 2. Dr. S. J. Pirson		May	73
	What's new in downhole operating technology. Dr. Robert Desbrandes		June	74
	What's new in marine exploration		July	103
	How hydrocarbon reserves are estimated from seismic data. J. P. Lindsey and C. I. Craft		Aug. 1	23
Offshore.	Amazon basin, North Sea spark South American, European play. Lewis G. Weeks		Feb. 1	32
	Louisiana offshore has top discovery potential in 1973. Dr. Robert E. King		Apr.	59
	Advantages and limitations of direct oil finding methods. Part 1. Dr. S. J. Pirson		Apr.	63
	Radar imagery identifies hidden jungle structures. R. S. Wing and H. C. MacDonald		Apr.	67
	North Sea experience aids sandstone evaluation. Dr. W. H. Fertl and R. J. Cavanaugh		Apr.	77
	Advantages and limitations of direct oil finding methods. Part 2. Dr. S. J. Pirson		May	73
	Offshore successes raise Far East/Oceania potential. Lewis G. Weeks		May	87
	Beaufort Sea petroleum potential appears good. Robert E. King		May	105
	What's new in marine exploration		Juty	103
	How hydrocarbon reserves are estimated from seismic data. J. P. Lindsey and C. I. Craft		Aug. 1	23
Well logging.	How downhole temperatures, pressures affect drilling. Part 8. Donald G. Timko and Walter H. Fertl		Jan.	45
	How downhole temperatures, pressures affect drilling. Part 9. Walter H. Fertl and Donald J. Timko		Feb. 1	47
	North Sea experience aids sandstone evaluation. Dr. W. H. Fertl and R. J. Cavanaugh		Apr.	77
	New prediction method spots abnormal pressures. W. R. Matthews, R. T. McClendon and C. H. Soucek		Apr.	87
	What's new in downhole operating technology. Dr. Robert Desbrandes		June	74
What's happening in drilling/exploration.	T. R. Wright, Jr. Column appearing in each issue.

"Our World Oil ads produce inquiries,"

says Mr. Dexter Brown, Vice President, Marketing for Plastic Applicators, Houston.

Plastic Applicators specializes in the application of internal corrosion-resistant coating to drill pipe, casing, tubing and line pipe, and non-destructive testing of oil field tubular goods. They run a regular schedule of full-page, black and white ads in WORLD OIL.

"Customers response through written inquiries has consistently remained at a high level on our ads placed in WORLD OIL," said Mr. Brown. "This provides me with tangible evidence of the effectiveness of our advertising information and trade journal selection."

WORLD OIL is the book that covers the worldwide exploration, drilling and production market. Its market-directed circulation of 26,800 goes straight to industry buying power. Including pass-along readership, total audience exceeds 69,000. Wherever gas and oil are sought or produced, men with buying authority read WORLD OIL.

Advertising to this market in WORLD OIL can also bring *you* inquiries that turn into sales.

For additional information, call John Sykes, Sales Manager, in Houston at 713/529-4301. Or write to:
